

6th International Conference and Exhibition on Analytical & Bioanalytical Techniques

Sep 1-3, 2015 at Valencia, Spain

Analytical & Bioanalytical Science research envisions a crucial role in determining the outcome values which predominantly have a say in the interdependent instrumentation & pharmaceutical industries, patients and new drug development procedures. Acknowledging this inevitable demand in this globalised era, OMICS Group Conferences once again takes the privilege to organize [6th International Conference and Exhibition on Analytical & Bioanalytical Techniques](#) during **Sep 1-3, 2015 at Valencia, Spain.**

Analytica-2015 revolves around the theme '*Review of Advancements and the Impacts of the Analytical & Bioanalytical Techniques*', opening the doors for researchers, pharmaceutical industry experts, students and CEO's to discuss and debate over far-reaching topics which would be paramount for the well being of humanity.

Analytica-2015 promises wide ranging opportunities for sponsors, exhibitors and media partners through collaborating, interacting and promoting their products and services. A lens through the previous conferences would say it all.
